

I hope you are doing well. I just realized that I never show you the inside of my book, so , as you can see kind of the idea is that is a bunch of really simple of small and short reflexions. So you got the phrase on one side of the page and the reflex ion is like one or two pages.

Act as if your heroes are watching. For example page 27, today is the Fist of St Joseph and he is one of my Spiritual Heroes, there are two things that I like from st Joseph in the gospel is whole actions and very little words, such is not words and he is the Foster Father ok and I know that I love doing projects with all my heart even they are not mine its difficult.
